

NATURHAUS Harmonic

Product information: NATURHAUS *Harmonic Finish* is a stain and finish in one. It will colour, finish and preserve slightly exposed interior woodwork such as panelling and wainscots, and especially reveal and enhance the natural attributes of softwood. It is available uncoloured and in semi-transparent custom colours, and dries to a satin sheen. Our Harmonic finish is made from an emulsion of Carnuba wax, Beeswax and Shellac. It will build a dirt-resistant, anti-static, breathable coating with excellent colour retention and light fastness.

Note: The wax coating reaches optimal resistance after a curing time of about 6 months.

Ingredients: Unbleached beeswax, carnauba wax, dewaxed shellac, cosmetic emulsifier and purified water. The coloured products further contain varying amounts of natural and synthetic pigments.

Application: Stir well before use. Apply with a brush or by spraying. Surface must be absorbent and free of wax, grease or dust. The maximum moisture content for softwoods must not exceed 20 percent (hardwoods 12 percent). Very resinous woods must be cleaned with NATURHAUS *Resin & Oil Thinner* (Prod. No. 00500), and exotic woods must be wiped with NATURHAUS *Alcohol Thinner* (Prod. No. 92801). Soaking of the wood surface with water and drying before the last grinding will improve the results. After a drying time of approximately 30 to 90 minutes, thoroughly buff with a lint-free cloth or a horsehair bristle. Even areas can also be machine buffed with a 500-grit brush (e.g. Edrutex). Clean application tools with water.

Drying time: Buff surface within 30 to 90 minutes after the application, depending on climate, temperature and humidity.

Physical properties: Density approx. 0.95 - 1.10 g/ml; viscosity approx. 13 - 18 seconds (ISO 2431, 4 mm).

Coverage: 15 - 30 m² per l (30 - 70 g/m²), depending on absorbency of the surface.

Test specifications: DIN EN 71-3 (security requirements for toys intended for children).

Hazard classification: The product does not require labelling according to *Council Directive 1999/45/EEC*.

Storing conditions: Keep the original container tightly closed and store in a dry, frost-free area. The product can be stored for up to 2 years.

Security and disposal information: Keep product away from children. Empty containers completely and send to a licensed recycler. Dispose of used or contaminated product in accordance with local authority requirements. For further information, please ask for our EC material safety data sheet.

Product Nos.:	01020	NATURHAUS <i>Harmonic "Clear"</i>
	01021	NATURHAUS <i>Harmonic Finish "White"</i>
