

## NATURHAUS Floor Soap “Clear“ & „White“

**Product information:** NATURHAUS *Floor Soap, clear & white* are products specially formulated to protect and clean untreated and leached softwood. Its regular use as part of a protective maintenance program will help build a dirt-resistant, anti-static, breathable, water-resistant coating. The product will further clean other interior floors made of wood, cork, linoleum, and stone. It is gentle in nature and can also be used for the cleaning of oiled and waxed floors. Our floor soap is made from a mixture of precious plant soaps containing soy and palm oil. The *Floor Soap “White”* additionally contains titanium dioxide (pigment white) to rejuvenate wood surfaces with whitewash effects. For cleaning and maintenance, just 0.25 liter of NATURHAUS *Floor Soap* per 10 liter of warm tap water and a damp-mopping on a regular basis is all it takes to begin a program of exceptional care. For additional sheen after cleaning with NATURHAUS *Floor Soap*, we recommend treating with NATURHAUS *Floor Milk (Prod No. 02400)*.

*Note:* Stir or shake well before using NATURHAUS *Floor Soap “White”*.

**Ingredients:** Coconut soap, soy oil soap, purified water. The “White” additionally contains titanium dioxide (pigment white).

**Application:** **Softwood finish:**  
Grind surface using a 120-grit to 150-grit sandpaper. Use one liter of NATURHAUS *Floor Soap* per 10 liter of warm tap water, stir well and apply abundantly and evenly to the floor surface. After a residence time of 10 to 15 minutes, shampoo the surface thoroughly using a mop or a floor machine with a white pad (fine texture). After a drying time of approximately 6 hours, the surface should be treated with an additional coat. Damp-mop with warm tap water after the last coating, allow to dry for 30 to 60 minutes and buff lightly with a dry mop or machine buff with a white pad (fine texture).

**Cleaning and maintenance:**

For cleaning and maintenance, use 0.25 liter of NATURHAUS *Floor Soap* per 10 liter of warm tap water and a damp-mopping. Allow to dry for 30 to 60 minutes, then buff lightly with a dry mop or machine buff with a white pad (fine texture). For additional sheen after cleaning, we recommend treating with NATURHAUS *Floor Milk (Prod No. 02400)*.

Floors that have previously been finished with NATURHAUS *Hard Oil High Performance “White” (Prod No. 00251)* and NATURHAUS *Hardwax “White” (Prod No. 01051)* should only be treated with NATURHAUS *Floor Soap “White”*
