

NATURHAUS Wood Refresher “Clear” & “White”

Product information: NATURHAUS *Wood Refresher, clear & white* is a solvent-based highly effective cleansing and maintenance product specifically developed for waxed and oiled interior floors and other medium-to-high traffic surfaces of wood, cork, terra cotta, stone and slate. The product cleans, rejuvenates and maintains the surface. It dries to a gloss sheen and creates a thin elastic, breathable, dirt-resistant and antistatic coating with superior water-resistant qualities. The product is especially recommended for professional use in the first treatment of wooden floors and stairways, and basic cleaning of all kind of wooden surfaces.

NATURHAUS *Wood Refresher, clear & white* is also available in 150 and 400 ml aerosol cans with environment-friendly propellant for easy application in smaller areas.

Ingredients: Refined linseed oil, linseed standoil, wood oil standoil, natural rosin esters, unbleached carnauba bees and candelilla wax, highly dispersed silica, isoaliphatic hydrocarbons, triple-refined orange oil, lead-free driers (Co, Zr fatty acid salts) with < 0.1 % fatty acid cobaltate. NATURHAUS *Wood Refresher “White”* additionally contains titanium dioxide (pigment white).

Application: **Floors:** Stir well before use. Machine apply using beige or green pad (abrasive texture). After two-to-four hours, machine buff with white pad (fine texture). High traffic floors and stairways should be treated every 4 weeks. For bleached and grayed surfaces a further application of NATURHAUS *Hardwax (Prod No. 01050)* is recommended.

Furniture: Stir well before use. Apply a very thin film using the aerosol can or a smooth pad. Allow to dry for approximately 10 - 15 minutes and buff with a lint-free cloth.

Clean spots and tools with NATURHAUS *Resin & Oil Thinner (Prod. No. 00500)*.

Drying time: approximately 8 hours, depending on climate, temperature and humidity. Allow to completely dry before covering with e.g. carpets or blankets.

Physical properties: Density: approx. 0.85 g/ml; viscosity approx. 13 seconds (ISO 2431, 4 mm).

Coverage: 100 - 150 m² per l (6 - 9 g/m²), depending on the absorbency of the surface.

Hazard classification: **Flammable liquid (R10)** according to *Council Directive 1999/45/EEC*.

Storing conditions: Keep the original container tightly closed and store in a dry, cool, frost-free and well ventilated area. The product can be stored up to 2 years.

Security and disposal information: Keep product away from children. Do not use in spray cabins where nitrocellulose laquers are processed. Keep away from sources of ignition and refrain from smoking. Ventilate working area during application and drying. Crumpled, soaked cloths may self-ignite at insufficient air supply. Therefore, spread out soaked cloths after use and allow to air-dry or store in a plastic container filled with water before disposal with the domestic waste to avoid the **Danger of self-ignition!** Do not allow to enter drains, surface waters and groundwater. Empty containers completely and send to a licensed recycler. Dispose of used or contaminated product in accordance with local authority requirements. For further information, please ask for our EC material safety data sheet.
